Many Students Want to Work Way Through

Jobs Of Various Sorts Asked By Men and Women Students—Apply To Chamber of Commerce

About fifty students of the State Teachers College have put in their applications at the Chamber of Commerce for positions of various sorts in order that they might find a way to remain in school, L. H. Brownfield, secretary of the Maryville Chamber of Commerce, said this morning.

Both men and women students are represented among the applicants. Various kinds of work is asked for such as office work, bookkeeping, stenography, sales work, house work of all kinds—in fact almost any kind of work there is to do.

Many of these students will be compelled to leave school if they do not find work of some kind. They are all deserving students, Mr. Brownfield said this morning, and should be encouraged in their desire to work their way through College.

The Maryville Chamber of Commerce offers the opportunity of getting the employe and employer together. This is the only organization in Maryville doing this kind of work.

The local organization asks the cooperation of the business men and citizens of Maryville for the carrying on of this worthy enterprise. All persons having any sort of work that could be done by a College student should notify Mr. Brownfield at the Chamber of Commerce office and he will furnish a competent person for the job.

"MAKE DEMOCRACY SAFE FOR WORLD"

CONSTITUTIONS ARE TOO COMPLICATED TO UNDERSTAND

FORD TALKS ON CODE

In Address To Student Body At S. T. C., M. E. Ford Endorses New Constitution On Account Of Brevity

"We will soon reach the place where we will have to make democracy safe for the world instead of the world safe for democracy," said M. E. Ford, one of the two representatives of Maryville to the state Constitutional convention which has just concluded its work at Jefferson City.

Mr. Ford was speaking to the student body at the College assembly and in his speech sounded this warning to the future citizens of America.

Mr. Ford traced the development of state and federal constitutions from their original sources and showed how each period added its bit to their development.

He said that at the present time our laws and constitutions are so lengthy and complicated that no average voter ever cares to read or study them. "The state has all of the governing power over its citizens except what they grant to the federal government and limit by their own actions. Consequently the state is continually making laws which govern every thing possible." Mr. Ford said that in our constitution for the state of Missouri there was a law prohibiting bed bugs in a hotel. Many other similar laws were cited which show the foolishness of our constitution.

"It was the effort of our state code body," said Mr. Ford to "eradicate all of this useless law making and to make a short and simple constitution." It was for this reason that Mr. Ford urged every one to vote for the new constitution on account of its brevity.

Mr. Ford went on to say that the shorter constitution a state has the more power the people have and the more respect for laws is a result. He cited England as a country having absolutely no written constitution. There the spirit of the laws is obeyed instead of the letter of the law. "United States is the most lawless nation in the world. Even Turkey has fewer acts of breaking the law than does America. The murders in Turkey are less than a fourth of the number of such crimes committed in the United States while the per cent of convictions by the law is greater."

"This is on account of the complicated and lengthy laws which we have that have so many loop holes in them. The voters never study these laws and consequently they are becoming worse instead of better." It was here that Mr. Ford sounded the key-note of his address by saying the public must be educated in the ways of democracy or democracy will be outlawed to the world.

Mr. Ford also added that under the present system we have a legislative body in the state which we cannot trust. Every member of this body must take an oath that he will not or has not accepted bribes. This is an oath that pokes fun at any pretense of patriotism among our law makers."

Mr. Ford closed his talk by again emphasizing the importance of short constitutions and urged that for this reason the new constitution should be drafted when brought before the people in the next election.

OFFICERS DISPERSE OKLAHOMA LAWMAKERS WITH BAYONETS

SOLONS DECLARE "THE FIGHT HAS JUST BEGUN"

LEGISLATORS FURIOUS

Members Of Lower House Hold Meeting At Hotel After Ejected From Capitol Building

Oklahoma City, Sept. 26 (3 p. m.)—Declaring they were dispersed at the point of a bayonet, the Oklahoma legislators who sought to assemble today at the state capitol building only to be barred from the building by the military officers, this afternoon announced in a statement that "the fight has just begun."

The members of the lower house went to their hotel headquarters down town immediately after being ejected from the state capitol, and held a meeting.

Many of the legislators were furious. When they came back to the hotel where they had their headquarters they found, they said, that Governor Walton's "gun men" were in their rooms. Words were exchanged and the leaders were ordered out. They left.

Headed by Representative W. D. McBee, who called the meeting for the purpose of impeaching the Governor, they held a caucus, following which McBee gave out the following statement:

"The fight has just begun. We have the legal right to assemble; both as citizens and as members of the Oklahoma House of Representatives, to inquire into state public affairs. We have been acting in a peaceful and lawful manner and will continue to do so, and the people of the state can be assured that nothing will be left undone to see that order is brought out of this chaotic condition and that all three branches of the government are properly functioning. That is the only issue and we absolutely refuse to be diverted from it by any pretex whatever.

"Notwithstanding we have just been dispersed from a meeting by bayonets and that we are shadowed in our rooms by gunmen at the instance of Governor Walton, and not permitted to even hold a caucus in our private rooms, we will meet anyway."

Although McBee did not say what the next step of the legislators would be, he intimated that it would be action in the courts—probably federal action. He went to consult with the attorney for the legislators.

Governor Walton, when asked for an expression of the outcome of the day's hectic events, said:

"I said they would not meet, and they didn't. I do not want to make any further comment until I am advised officially as to what will be the next procedure of the Ku Klux Klan legislature."

Later, McBee announced that the House still is in session. He said that members of the House were contemplating court action against Walton.

"We can keep on meeting anywhere inside the state of Oklahoma, and continue to force the military authorities to disperse us as often as they see fit," McBee said.

Oklahoma City, Sept. 26 (1 o'clock).—The Oklahoma House of Representatives failed this noon in an attempt to assemble in defiance of Governor J. C. Walton.

When the time came for them to meet "under the constitution," as they said, they were dispersed by the military officers.

Speaker pro tem Charles S. Brice of McAllister County, at exactly 12 o'clock, called the House of Representatives to order in the rotunda of the capitol on the fourth floor, just adjacent to the legislature chamber, for determining whether a quorum was present.

Col. W. S. Key, military commander of Oklahoma City, immediately interrupted and requested the legislature to maintain quiet. He then read the military order directing that the legislature be dispersed. He stated that it was his duty to disperse them and earnestly pleaded with them that they do him the courtesy of dispersing quietly and in an orderly manner.

"I have my orders from the adjutant general, who has received his instructions from the Governor," Key said. "I hope there will be no trouble—that you will do as I ask," he said firmly.

He then read a special military order signed by Adjutant General Markham which forbade the gathering of any or all of the members of the legislature at the state house at noon today, or at any other time or place within the state during the present period of unrest, on the ground that such gathering or meeting was "an unlawful assembly in violation of the constitution and laws, calculated to bring about a breach of peace, provoke riot and institute a reign of anarchy and bloodshed."

There was a dramatic pause when the Colonel read the order. Representative David Stovall of Hugo asked him the direct question:

"Are you commanding us as members of the legislature to disperse?"

"I am," the Colonel replied.

"Have you the entire state militia at your command to enforce this order?" Wesley E. Disney, legal advisor of the representatives asked.

"I refuse to answer," was the Colonel's reply.

There was another pause.

"I want all of you to move on," the Colonel commanded sharply.

The troops stood at attention—one of them behind a machine gun.

Immediately, there was a shuffling of feet and the "lawless legislature," as Governor Walton has termed them, made for the lone elevator that was running.

At 12:08 o'clock, just eight minutes after the legislature had attempted to meet, the lobby was cleared and shortly afterward, they were out of the building.

Governor Walton has insisted ever since he declared martial law September 15 that the legislature whom he terms the "Ku Klux Klan legislature" would not meet for the avowed purpose of impeaching him.

While the legislators were filing out of the building—some of them plainly indignant, for they had come many miles just for this—groups of state employes stood around and smiled.

After leaving the capitol building, the legislators went up town to the legislators' headquarters at a hotel here.

Oklahoma City, Sept. 26—At exactly 10:28 o'clock this morning, the first two members of the Oklahoma House of Representatives arrived at the capitol building and passed through a "ring of steel," and applied at the east entrance for admission so they could hold a session of the legislature which has for its purpose the impeachment of Governor J. C. Walton.

They were permittted to enter.

The first two members to arrive were F. M. Boyer of Tulsa County and Marshall Smith of Osage County. By virtue of their being members of the House they were vested with the pass word. This they gave to Col. W. A. Graves, Oklahoma National Guard, who had been challenging every person to seek admission.

The Colonel, after a few questions, smiled and permitted them to go inside.

They proceeded at once to the fourth floor of the capitol building where the chamber is located, and stood at the rotunda awaiting the arrival of their colleagues.

The House chamber was guarded by four infantry men in field uniform and armed with rifles.

The legislators, on their arrival found troops completely encircling the building. Artillery men in khaki with side-arms and clubs were stationed about twenty yards apart around the capitol building. They walked leisurely, swinging their clubs.

There also was a sprinkling of infantry men with drawn bayonets. They saluted snappily as superior officers passed from time to time.

Near the portals of the east entrance was Colonel Graves, Oklahoma National Guard, and aides. Besides the legislators, only newspaper men with special military passes signed by the Governor were permitted to enter.

In the rotunda of the main floor sat Col. W. S. Key, military commander of Oklahoma City and his staff. They sat, eight in number, at a table.

Before the "lawless legislators" arrived at the building, virtually all state employes had left for the day, it being a holiday because of Oklahoma City day at the state fair.

The first two legislators came by automobiles. It is expected that other legislators will arrive shortly.

ITASCA HIGHWAY TO K. C. IS ASSURED

WESTON PLEDGES TWO-THIRDS OF FUNDS AND MEMBERS.

400 ATTEND MEETING

Highway Through Maryville May Extend From St. Joseph to Leavenworth, Then to Kansas City.

The following is from this morning's St. Joseph Gazette relative to a meeting of members of the Itasca Park Highway Association held in St. Joseph and Weston yesterday. This Itasca highway passes through Maryville and undoubtedly will be extended from St. Joseph to Leavenworth and Kansas City.

The following is the article:

The Itasca Park Highway will be extended south through Weston and Leavenworth to Kansas City. This was the opinion of the 400 delegates representing automobile clubs and towns along the proposed route who met in Weston Tuesday afternoon and in St. Joseph Tuesday morning.

The extension was assured when Weston promised 200 members of the Itasca Park Highway association, Leavenworth 100 and other towns enthusiastically pledged more than their quota. When $3,000 was asked Weston and Leavenworth pledged a proportionate share. The St. Joseph Automobile club promised to bear a third of the expense and the Automobile club of Kansas City the expense of marking the extension.

Committee Given Work.

The Eureka theater in Weston was filled to capacity at 2:30 o'clock, when the automobile caravan arrived from St. Joseph, where the morning meeting was held, Julius Rumple, chairman of the Weston branch of the association, presided.

The work preliminary to the actual construction has been given a committee of the officials of the association. Work now being done in Platte county will have to be completed before the extension can be started, it was stated. K. D. Cross, Savannah, president of the association, told the committee the first requisite was the raising of funds.

Turner Pledges Members.

"The association has 200 members in this district," said J. H. Turner, Weston, in addressing the delegates, "and banding together we pledge to do all that money and energy can do to promote interest in the Itasca Park highway, on both sides of the river, and ask that the commission adopt this route."

Charles L. Faust, representative, said: "Just now you have an opportunity. If the highway commissions of Missouri and Kansas designate highways across the river, the federal government will contribute to the building of bridges to connect the highways."

Mr. Cross told the representatives he had seen so much work done for $1,700.

Road Work Commended.

"I realize that much of it was volunteer work. The road has been so greatly improved since I was over it a year ago. But, even with the work which has been done, there is still some work to be done. However, every dollar you raise in memberships, will be used right here on your own road, in your own county. To secure the road you must have not less than 300 membership, which at $5 a year will give you $3,000 in two years for work on the road," he said.

Mr. Cross said boosters of the Leavenworth-Atchison road were begging for the Itasca Park highway to be routed that way.

He said that it was the ultimate aim of the I. P. H. association to extend the highway eventually to Los Angeles. The Kansas City Automobile Club hopes to extend the highway south from Kansas City over the Short Line route to Tulsa, Okla. Considerable effort is also being made to connect the highway at Leavenworth with the Fort to Fort highway to Topeka, and south on the Capitol highway through Oklahoma and Texas.

What It's All About---

I JUST GOT a letter from a
FRIEND of mine
TODAY WHO said I
HEAR that
YOU ARE going to have a
FALL FIESTA
and EXPOSITION at Maryville.
AND he said I don't know what
A FIESTA IS or what
YOU'RE going to have
THERE
OCTOBER 3, 4 and 5,
AND I WANT to know if it is
going to be
WORTH COMING to.
SO I SAT right down and
WROTE to friend Jack and
TOLD him anything that
MARYVILLE puts on will be worth
COMING TO SEE.
THEN I told him that a
FIESTA was a holiday and a place
TO HAVE A GOOD TIME and
NOTHING ELSE BUT.
BUT
SINCE HE wanted to know more
ABOUT THE Fiesta I
TOLD HIM that there would be
MILES
AND MILES
OF AUTOS there on the first day,
IN A PARADE and that
HE MIGHT win some
REAL CASH in prizes by
COMING in his car or he might
WIN A NEW FORD COUPE
WHETHER he walked or motored.
AND I told him he
WOULD SEE all the best
FINISHED PRODUCTS of
NODAWAY COUNTY'S
FOOD FACTORIES on Agriculture day
AND ANOTHER PARADE.
SINCE JACK was "Over There"
I TOLD HIM to be sure
AND COME
SOLDIER'S REUNION Day, Oct. 5
AND WE'D feed him free,
PUT him in the parade,
STICK HIM in the sham battle
AND FIREWORKS,
TAKE HIM TO THE BIG
MARDI GRAS and
GRAND BALL
and IN OUR SPARE TIME I would
TAKE him to the
SIDE SHOWS and show him
THE FREE ACTS and the
BEARCATS FOOTBALL game.
I TOLD HIM a lot more but
I WOUND UP by telling him
THAT if he didn't have
MORE FUN than
A BARREL OF MONKEYS
I'D CRAWL in a hole and
PULL THE HOLE in after me and
NEVER SAY "BOO" about him
COMING TO another
PARTY IN MARYVILLE.
BUT I think he'll come
for—

—I. L. Bethere.

Card of Thanks

I am taking this means of thanking my friends because I am unable to write to them. I want to thank my numerous friends for their donation of flowers. They have been a comfort to me, not only because of their beauty, but because of the donors themselves. I am getting along comfortably under the best care and attention. Taking the doctor's and nurse's word for it, I am getting along I have concluded Maryville is a good place in which to live when sick. If my present nurse is a specimen of the nursing care of this Hospital, their service is worth their weight in gold.

Wet Wash Service Is Instituted by Bush

Maryville Steam Laundry to Start New System Used by Metropolitan Laundries, October 2

The Maryville Steam Laundry under the proprietorship of F. A. Bush, will inaugurate a new department in the laundry on October 2. The system is known as the Wet Wash Service. It has been adopted by large laundries in metropolitan cities and has proved a most popular method in power laundrying method of family washes.

The system consists of calling and delivering for bundles. The clothes are washed thoroughly with purest soaps and rinsed in clean water. Pieces that require starching are starched lightly and returned to the home of the patrons damp enough for ironing or drying.

This invention that Mr. Bush is introducing into Maryville has been instituted in response to the number of requests of the patrons of the laundry. It is rather unusual to find such a modern system in a town this size.

The system that is free from impurities—through which rich red blood tingles need not worry about advancing years. Enlist the aid of S. S. S.—the builder of red blood cells—to fight off the infirmities of Old Age.

With the aid of S. S. S. when you reach this stage of life the nerve power that has been built up by ever increasing blood cells—the vim and vigor of youth that you possess will capably enable you to enjoy the advantages of passing years, while others less fortunate are feeble and dependent.

S. S. S. for nearly a century has been serving as a valuable and time honored assistant in the fight for hale and hearty Old Age. It is made only of pure vegetable ingredients and is sold at all good drug stores. The large size bottle is the more economical.
